Ecoleather.

La chaise longue Soft Pipe si ispira alla silhouette di una donna distesa, abbigliata da lunghi guanti e stivali. Il rivestimento in pelle e le estremità in acciaio la rendono sensuale e insolita, scultorea e dinamica. La struttura interna è in metallo rivestito con poliuretano. Il rivestimento in pelle o ecopelle viene proposto nei colori bianco, nero e rosso. Il colore può essere personalizzato. H83xL58xP198cm

Soft Pipe chaise longue is inspired by the shape of a lying down woman, dressed in her long gloves and boots. Two pipes covered with soft coloured leather and metallic parts on their overboard become a dynamic, plastic, surprising and sensual sculpture. Internal structure is totally made of metal pipes covered with polyurethane. Soft Pipe's external covering is available in White, Black and Brilliant Red leather or ecoleather. Colour is customizable. H83xW58xD198cm
